What is a QR code?

A QR code (abbreviated from Quick Response code) is a specific matrix barcode (or two-dimensional code) that is readable by dedicated QR barcode readers and camera telephones. The code consists of modules arranged in a square pattern on a white background. The information encoded may be text, URL, or other data.

Greetings,

As another month bites the dust, we have been very busy with web sites. Many businesses are now appreciating the 24/7 exposure and believe the following statement to be true.

NZ Business Magazine states: "80% of under 25 year olds go to the internet first, to find their preferred supplier".

If you have been thinking about a web site, come and talk to us. We can make suggestions and provide an estimate.

ANOTHER New Printer!!!!

HP Wide Format Printer

Ain't technology wonderful! - Our new printer measures amount of paper and ink used in any job. This has enabled us to really fine tune our pricing and in some cases the retail price has dropped.

Canvas Prints: Great for long term images, portraits and special photographs - create your own art work.

Matt and Gloss prints: Medium term use for promotional signage, trade show posters, sale banners of any size.

How cool does that grandson feel having a life size poster on his wall of his first caught fish! - Have it laminated and extend its life.

HaHaHa!

A mechanic was removing a cylinder-head from the motor of a Harley motorcycle when he spotted a well-known cardiologist in his shop. The cardiologist was there waiting for the service manager to come and take a look at his bike when the mechanic shouted across the garage.. "Hey, Doc, want to take a look at this?"

The cardiologist, a bit surprised, walked over to where the mechanic was working on the motorcycle. The mechanic straightened up, wiped his hands on a rag and asked, "So Doc, look at this engine. I open its' heart, take the valves out, repair any damage, and then put them back in, and when I finish, it works just like new. So how come I make \$39,675 a year and you get the really big bucks when you and I are doing basically the same work?"

The cardiologist paused, smiled and leaned over, then whispered to the mechanic ... "Try doing it with the engine running ...
